

# Tier 3 designed facilities with excellent connectivity

Located in the northern area of Stockholm, Kista the largest Information and Communications Technology (ICT) cluster in Europe, atNorth's new data center is a first-rate option for high tech companies in the region.

<sup>1</sup> Cushman/Wakefield Data Center Risk Index

Extreme Power Density

Up to 40kW air cooled / 100kW liquid and water cooled

High Energy Efficiency

Compute heat utilized to lower customer TCO

Excellent connectivity

**Fast and reliable**  
**Pan-European connectivity**

Secure

**Tier 3+ design · Skyddsklass 3**  
**(Swedish Class 3 Compliant)**

## Facility - SWE01: SIF DC

Gross Space	6.000 m <sup>2</sup>	
Available capacity	11,2 MW	
Number of racks	4-600	
<b>Power and Cooling</b>	<b>DCSmart<sup>2</sup></b>	<b>DCPro<sup>3</sup></b>
Redundant power supply	Optional	Yes
UPS systems	Optional	Yes
Diesel backup generators	Optional	Yes
Carbon free (green) energy	Yes	Yes
Cooling system	Heat Recovery System	Heat Recovery System
Air cooled rack density	+ 40 kW	up to 40kW
Liquid cooled rack density	+ 100 kW	+ 100 kW
Energy efficiency	Compute Heat Utilized	Compute Heat Utilized
<b>Security</b>		
Smoke & fire detection systems	Yes	Yes
Fire suppression systems	Optional	Yes
Secure perimeter and access layers	Yes	Yes
Registered access control	Yes	Yes
Active access logging and anti-passback	Yes	Yes
Security & operational monitoring	Yes	Yes
<b>Additional Facilities</b>		
Office area and meeting rooms available for customers	Yes	Yes
Staging area	Yes	Yes
<b>Certifications</b>		
ISO/IEC 27001:2013 - Information Management Security	Yes	Yes
Redundancy Design	Tailor Made	Tier 3 +

<sup>2</sup> DCSmart, our tailored Tier 1 facilities combine power, cost and operational efficiency on top of purpose built colocation data center buildings.

<sup>3</sup> DCPro, our Tier 3 designed facilities give you the ultimate flexibility to get the most cost efficient colocation for your infrastructure.
